

2. ENVIRONMENTAL POLICY STATEMENT

Allen, Gordon & co understands the need to take a proactive approach to protecting and enhancing the environment in which we live. We recognise that efficient use of resources and protection of the environment are a priority to ensure the continued success of our business.

As an organisation we will commit to the following:

- Act responsibly towards the environment, follow best practice and ensure that relevant legislation is adhered to
- Endeavour to prevent pollution and promote resource sustainability through the reduction of waste and energy consumption and the use of sustainable products both within our firm and in our projects.
- Seek to minimise the negative impacts of necessary infrastructure developments on the environment and positively influence our business partners in their approach to the environment
- Monitor and examine our environmental performance and implement continuous improvement
- Providing sufficient financial and physical resources to support our environmental responsibilities

We will train, develop and encourage our employees to consider and behave responsibly towards the environment in our work within construction projects in which we are involved.

This policy applies to all employees of the company.
